The Energy Cell

bits/bytes of data AS powered by the energy cell and specialized OS that can accept the human body as an item to be converted into energy, stored within the QCV5 and then reassembled as the same physical physique of matter/energy and inclusive of all the original human brain neuron energy patterns (memories) as it was before the QCV5 and the MEC converted it and then stored it within the QCV5.

After the Mater to Energy conversion and data bits storage of the, QCV5, its OS will medically examine that human bodies current medical condition against the original DNA architecture at birth and then return it back to that original of atomic particulars of it at birth architecture, with consideration of its to

that moment of time passed.(age factor) wrinkles removal, skin flexibility restored. Excessive body fat gone.

Then within 5 minutes after the process of the converter was initiated, the QCV5 & the EMC will bring back that human body fully functional while excluding such cells as tumors of cancer or whatever else was not originally specified within the chromosomes or Genome of the DNA of the original architecture of that human body.

A certified MD medical professional experienced in genetics will be present to operate this medical orientated (MEC) converter unit

By utilizing the converters MEC holographic screen selection to function as a Matter to Energy Converter particularly selected via the QCV5 selection as 'medical' OS for its action of conversion. (OS = **O**perating **S**ystem software)

The unit is operated via a projected holographic screen menu that operates as a holographic touch screen to call forth the index of selections to do the physiology and genetic DNA selections to be done by the QCV5 and the EMC ~ MEC medical converter (MC) unit as powered by the Energy Cell.

The implementation of the QCV5 with its extensive specialized OS software and the variable capable power of the Energy Cell and the six E-121 atomic Element plates that are the inner walls, floor and ceiling of the EMC ~ MEC converter.

The QCV5 and energy cell are housed in the base of the converter. That Energy Cell is for the full supply of all energies the QCV5 needs to perform the MEC function

The converter system will convert the human body and its DNA into atomic energy conversion and be the production of stored bits//bytes of recoverable data as the full living, thinking alive architecture of the medically converted human and its 'body'.

“The final exact, answer to the ongoing human medical condition. The Complete Medical cure at the highest, purest and most immediate level.”

Chemical / Atomic Elements Composition of the Human Body

MAJOR CLASSES OF COMPOUNDS IN THE HUMAN BODY

Most of the elements are found within compounds. Water and minerals are inorganic compounds. Organic compounds include fat, protein, carbohydrates, and nucleic acids.

Water: Water is the most abundant chemical compound in living human cells, accounting for 65 percent to 90 percent of each cell. It's also present between cells. For example, blood and cerebrospinal fluid are mostly water.

Fat: The percentage of fat varies from person to person, but even an obese person has more water than fat.

Protein: In a lean male, the percentages of protein and water are comparable. It's about 16 percent by mass. Muscles, including the heart, contain a lot of muscle. Hair and fingernails are protein. Skin contains a large amount of protein, also.

Minerals: Minerals account for about 6 percent of the body. They include salts and metals. Common minerals include sodium, chlorine, calcium, potassium, and iron.

Carbohydrates: Although humans use the sugar glucose as an energy source, there isn't that much of it free in the bloodstream at any given time. Sugar and other carbohydrates only account for about 1% of body mass.

Elements in the Human Body

Element	Percent by Mass	% Percent by Mass
Oxygen		65
Carbon		18
Hydrogen		10
Nitrogen		3
Calcium		1.5
Phosphorus		1.2
Potassium		0.2
Sulfur		0.2
Chlorine		0.2
Sodium		0.1
Magnesium		0.05
Iron, Cobalt, Copper, Zinc, Iodine		Trace amounts
Selenium, Fluorine		minute amounts

Six elements account for 99% of the mass of the human body. The acronym CHNOPS may be used to help remember the six key chemical elements that are used in biological molecules.

C is carbon, **H** is hydrogen, **N** is nitrogen, **O** is oxygen, **P** is phosphorus, and **S** is sulfur. While the acronym is a good way to remember the identities of the elements, it doesn't reflect their abundance.

Oxygen is the most abundant element in the human body accounting for approximately 65% of a person's mass. Each water molecule consists of two hydrogen atoms bonded to one oxygen atom, but the mass of each oxygen atom is much higher than the combined mass of the hydrogen. In addition to

being a component of water, oxygen is essential for cellular respiration.

Carbon is contained in all organic compounds, which is why carbon is the second most abundant element in the body, accounting for about 18% of body mass. Carbon is found in proteins, carbohydrates, lipids, and nucleic acids. It's also found in carbon dioxide.

Hydrogen atoms are the most numerous type of atom in a human, but because they are so light, they only make up around 10% of the mass. Hydrogen is in water, plus it's an important electron carrier.

Nitrogen is about 3.3% of body mass. It's found in proteins and nucleic acids.

Calcium accounts for 1.5% of body mass. It's used to build bones and teeth, plus it's important for muscle contraction.

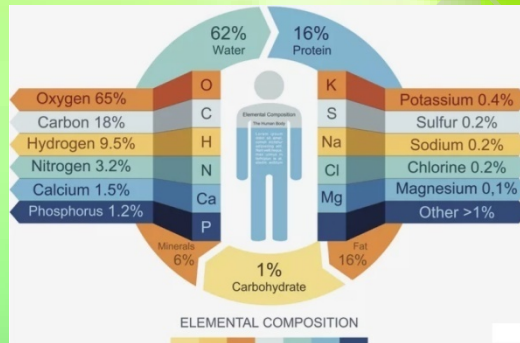

Phosphorus is about 1% of body mass. This element is found in nucleic acids. Breaking bonds connecting phosphate molecules is a major component of energy transfer.

Potassium is around 0.2-0.4% of the mass of a person. It's used in nerve conduction. Potassium is a key cation or positively-charged ion in the body.

Sulfur is found in some amino acids and proteins. It's about 0.2-0.3% of body mass.

Sodium, like potassium, is a positively-charged ion. It's about 0.1-0.2% of body mass. Sodium helps regulate the electrolyte

The below chart is a simplified exemplification of the Elemental Composition of the human body that can easily be assimilated by the EMC ~ MEC converter system.

That action by the `converter` components of the QCV5 & MEC ~ EMC converter units then reconfigures that human body back to its original DNA before conversion and with the cure of;

- A loss of Asthma
- A loss of Rheumatoid Arthritis.
- A loss of kidney stones.
- Regain your eye sight.
- Be with normal hearing.
- Reconfigured broken bones.
- Cured Athletic Injuries
- The answer to polio
- The final cure for cancer
- The full cure for HIV.
- The full cure for any sexually transmitted disease.
- The answer to hair loss.
- The answer to wrinkly skin.
- The full repair of bullet wounds.
- The end of osteoporosis.
- Tuberculosis

VFW soldiers medical needs of any country on Earth.

And the medical list of ailments curable by the Medical Converter (MC) goes into the total inclusive encompassment of all the human medical conditions ailments.

The final exact, answer to the ongoing human medical condition.

The Complete Medical cure at the highest, purest and most immediate level.

A medical professional experienced in genetics will be present to operate this medical orientated converter (MC) unit.

The unit is operated via a projected holographic screen menu that operates as a holographic touch screen to call forth the index of selections to do the physiology and genetic DNA selections to be done by the QCV5 and the EMC ~ MEC medical converter (MC) unit as powered by the Energy Cell.

Veterans of Foreign Wars (VFW) International.
Departments Of Defense (DOD) International.

With concern for military veterans.

You as a soldier that was involved in a military confrontation operation with a military opponent that cost you the loss of one or more of your much needed appendages such as an arm or hand or a leg or foot or some other physiological body part and you now consider yourself as physiologically incomplete and are not now as fully as you were genetically physically birthed to be, and that MISSING part of your body modality has sincerity depressed your lifestyle while you are being aware

and knowing that the missing part of your body is now only a prosthetic that was put to your body by the VFW clinic or physical therapy center that you attend that is near your current residence. Even though you now have, or may have, a prosthetic you remain with the physical feeling that the original appendage that is now missing is still being with you.

HARKEN TO THIS SOLDIER:

By way of this TPEOM Medical Converter(TPEOM MC) as a scientific technology of a TPEOM Medical Matter to Energy Converter ~ Energy to Matter Converter (TPEOM MC MEC ~ EMC) unit you can have your missing appendage, body part returned to you as Genetically as correct as per the original DNA Genome architecture of your body as it was originally birthed to be.

This action is by way of the TPEOM Medical converter (TPEOM MC).

This reinstatement process of your missing limb or other body part(s) happens only within a time line of five (5) minutes after your entry into the TPEOM MC and the TPEOM MC unit is activated by the attending medical geneticist that is responsible for its application.

You whom is a VFW soldier attending a veterans hospital or physical therapy center and have concisely read this VFW section of TPEOM with comprehension and then became imbued with determination to be physiologically complete again and thereafter with that reinstated physical completion you will continue onward with your life and your body as being physiologically correctly complete.

So then and therefore you can or will only as yourself, or as a group of veterans determinably go and approach the VFW HQ nearest you and only you, or as a group will strongly or diplomatically state your collective desire to meet with the head administrator and you or your group will comprehensively make your statement to that VFW administrator for the VFW to do all within their governmental and military power to insure that the needed TPEOM MC MEC ~ EMC units are forthwith acquired by the VFW or military DOD from TPEOM and then installed at the VFW hospital or physical therapy center that you and your VFW colleagues ~ fellow soldiers attend for their VFW medical care that is nearest your collective residences.

This is your life, so now that you know of this TPEOM MC unit you are aware of a way to make better of your life at your will as you will for your physiological life to be fully complete again -

Regards
TPEOM.

Should you be a medical specialist, hospital (Cedars-Sinai Medical Center) a private party deeply interested in performing the above as stated, or a government of a country then you are welcome to contact me for considerations of your having such a tool for as you will, to make good for the citizens of your country and expat visitors for medical service.

I am sure we can or you can and will settle the financial modality of this to make it a special implementation for you to have it delivered to you after I've returned with it from Geneva, Switzerland & France with it for you.
